

Oxford County United
Parish

Parish

Embracing Albany, North Lovell, Stoneham and the Northwaters. Pastoral Staff: Revs. W. I. Bull, B. F. Wentworth, A. C. Townsend

Several cases of whooping cough have appeared at South Waterford and on account of this and the lingering cases of grippe, no Sunday school was held last Sunday.

Rev. A. C. Townsend was called to Boston last Sunday afternoon to attend the funeral of Mr. Joshua Bennett. Mr. Bennett had spent several winters with relatives at South Waterford and was a familiar presence in that village.

The stereopticon lecture, "The Negro in the South" is being shown on Sunday evenings throughout the parish. It was shown last Sunday evening at North Waterford, and will be shown next Sunday evening at South Waterford, at which time a special offering will be taken for Methodist Work.

The annual United Parish winter carnival will be held at North Waterford, next Saturday, Feb. 23. This day of winter sports is becoming very popular, not only through this parish, but in the surrounding towns. Several new features will be introduced this year. The Payson cup, given by Miss Jeannette Payson of South Waterford, will be given to the high school sending the winning team. The high point man will receive a cup as last year. The winner within the parish will also receive a cup. The carnival dinner, served by the ladies of the parish in the North Waterford church, will be for the benefit of the staff fund. The supper, also at the North Waterford church, will be served by the East Stoneman Circle.

In the evening the carnival goes will be given after which the drama, "The Heart of Maine" will be presented by North Waterford talent. Programs are being distributed. Last Saturday a very successful local carnival was held at the East St. Parish carnival, was held at East Stoneman.

(Copies of the pamphlet, "The Fellowship of prayer for the Lenten Season" are being distributed by the Ladies' Society) and the Staff is making some special plans for services during March, leading up to Easter, March 31.

LOVELL—No. 4

Jolly-Ate Club

It seems like a step backward to record in prose the meeting of the Jolly-Ate Bridge Club, held last week at the hospitable home of Mrs. Cora Kimball, at No. Four; and yet our poetess feels that she ought to get caught up on her baking.

All members of the party seemed to receive a great deal of pleasure in having Mrs. Annie Walker and Smith's wife

her long illness, even though she was not strong enough to join in the play. Mrs. Kimball's home was very appropriately decorated for St. Valentine's Day. Two tables were in play and again Ruth added the first prize in play and again Ruth won. It is understood, on good authority, that each time Ruth brings home a prize, conditions become more strained at home as it brings just that much nearer the time when a special room will have to be built to house the prizes. Jessie and the consolation prize went hand in hand. When the play was finished the guests were treated to another wonderfully pleasant surprise all of which the refreshments served by the hostess. The coming next week will be held at the home of Mrs. Coy, on Eastman Hill.

overturned while attempting to pass another auto. The defense argued that Kane was not driving at such a speed, but was blinded by the lights of the approaching car. It was shown that Kane had experienced a high powered car. Former Sheriff Wm. O. Frothingham and Capt. Wm. L. Davis all testified that Kane told them that he was traveling about seventy miles an hour when the accident happened and that Kane did not belong to him, but was a car belonging to him in Massachusetts. Kane testified that Kane told him that Kane had the speedometer on the Newbury turnpike while traveling 72 miles an hour.

The respondent was represented by E. W. Abbott, who was appointed by the court.

Heard and Seen at
Advertiser Office.

Mellie Dunham strayed from the farm on the snow covered Crockett Ridge, Tuesday and gave us a call. He is full of business and pepped up for his appearance at the Cleveland Auditorium during the Sportsman's Show at Cleveland, Ohio, from March 31 to April 6. The veteran showman will tell the folks about hunting and fishing down in Maine with a review of old times together with a story of how his first snowshoes were made more than fifty years ago. Above all he will entertain with his trusty fiddle. Gram Dunham expects to accompany him if her health permits and have something to tell of her hunting experiences. Mellie says, "Scatter smiles is my religion." Certainly he is living right up to his slogan and enjoys it.

John Woodman is planning on starting a sheep ranch in Yaggar. He is patiently waiting the results of the wool tariff in Washington and the bear bounty law in Augusta. John is always long headed and careful.

One who was there Sunday, tells about the surface of North Pond just black with ice. Men, women and children joined in the sport of chopping holes through the ice and watching for bobbing flags. So much for publicity given two Norway boys in the local and Boston papers, calling for a party to some wonderful luck at the pond.

Garfield Walker: "I think more people are employed in making shoes in Norway now than at any time since I've been here." He has been here some eight or ten more years.

The weather of last Sunday, February 17, was called "untimely." So is the playing of marbles in the Bidlon Store alley untimely for February.

Current rumor: That R. C. Dunham, the radio man, is soon to move from Printing Office Square to the new building opposite the Fair Grounds on Paris Street. It is too densely populated with "static" where he now is, and the move is necessary.

Seitz reply: "The front page redeems the managing editor, but he should watch his steps."

"Tex" Smith, boxing promoter, rings down the curtain on future matches unless the mitt slingers agree to go on "winners take all." Synthetic fighting under the fixed price rule doesn't catch the crowd, they want to see the boys with concrete dam cages work something besides de-natured athletics. Young Matt, the popular Norway boxer, affirms he has quit the ring for more profitable business.

Sent in: "I hope Norway will enjoy paying interest on \$140,000.00 for a plant worth one-third the sum. It should have been the property of the village ten years ago paid for with the revenue mitigating taxation."

R. C. Gurney: "Imitation or 'culture' pearls are becoming so perfect now that it takes an X-ray machine to detect the real from the false. By injecting bits of foreign material into the shell of a living pearl-oyster 'culture' pearls have been obtained and they come near being perfect."

One evening about two weeks ago Mrs. Raymond Exirs rescued a female tiger from a watery grave under Tanbury Brook bridge. Kitty has been a star boarder at her home ever since, but checking out must come soon. Should a family be mourning for the loss of a tiger cat with one eye, for, cheer up, the cat will be parked after a call at the Exirs home.

Heard on the street, remarked by an eight year old child: "Aunt Mabel, are minister's wives supposed to use little children pleasantly?"

Said in Kansas: "Fifty days of real winter are always followed by a good crop." How little do we think or talk of good crops. The potato crop is too big and price too little.

Why do women grow old at premature age?
One good reason: Doing things electricity will do, for only 3c an hour!

Probably the greatest aid to the modern housewife is when she becomes the owner of an Electric Washer. There's a song on her lips as she quickly goes about her work after putting the clothes in her washer . . . time to think of other things. No more boiling of clothes, no standing over a wash tub scrubbing for hours at a time but a new, more pleasant and above all, a more civilized way, for why should a woman waste her time, energy and strength becoming old and faded at premature years.

We Believe . . . that it will give you the service you expect of it . . . that it is as fair a value for the money invested (\$109) as there is on the market. There are five thousand owners in our territory to substantiate this belief.

Features of the EASY (Thrifty model)
Glistening White Duo Finish
One Piece Metal Full Swinging Wringer
One Point Oiling System
Two Simple Controls

An Investment in Happiness
We would like to have you try this washer right in your own home where you can be the sole judge and make any tests you desire. There's no obligation whatever in this offer. Feel free to phone now for a demonstration at your convenience.

Have you plenty of these handy little "Outlets"?
"Convenience Outlets," just plug in your washer, toaster, percolator, cleaner, lamps and radio without going to the bother of taking a lamp from its socket.
